

WP2: Curricula Design

Co-funded by the
Erasmus+ Programme
of the European Union

Csaba Ortutay
Berlin, 26. 03. 20118

Partner 11: HiDucator

Task 2.2: Design of BioS modular curricula

Introduction to Bioinformatics

- An overview of major biological databases and introduces basic methods for the analysis of DNA and protein sequences, and of protein structures.

Commercial personalised genomics services in patient care

- Provide medical doctors the necessary knowledge and skills to interpret results from commercial personalised genomics services, like 23andMe, deCODE, Gene by Gene, etc.

Computational Statistics for clinical doctors

- A practical introduction to analysis of biological and biomedical Big data.

Quality Improvement in Healthcare

- Equip trainees with a range of knowledge and skills, which are relevant and applicable in communications within healthcare contexts. Participants will learn how to build high performing and engaged healthcare teams, establish and sustain effective clinical relationships, as well as implement strategies and tools to support patient-centered care.

WP2 Deliverables

- R2.1: Guide on EQF/ECVET/EQAVET application (April 2018)
- R2.2: BioS modular curricula (July 2018)
- R2.3: BioS assessment and accreditation framework (August 2018)
- R2.4: BioS course Catalogue (August 2018)

EN, GR, PT, IT, ES, DE, FR, FI

WP2 Workdays

February 2018 – August 2018
